

A MESSAGE

Asking for Information for Facts Connected With Commerce.

W. J. Calhoun, the Representative in the Ruiz Case, in Washington.

Chairman Dingley Has a Long Conference With the President-Senate Committee Seeking Information in Regard to Merits of Amended Tariff Bill.

WASHINGTON, May 7.—The president Thursday sent to the senate a resolution asking for all information in the department of state concerning tariffs, taxes, exports and imports and in fact everything connected with commerce. The message transmits a letter from the secretary of state transmitting such information as has been furnished the bureau of statistics through consular reports. It is hinted that the bureau has not had adequate funds to print all the information which has been received and the secretary suggests that larger appropriations be made for enlarging the work of the statistics bureau.

Mr. Dingley, chairman of the ways and means committee of the house, had a long consultation with President McKinley Thursday afternoon, presumably about the tariff bill. Mr. Dingley declined to say anything about the subject of his visit.

Mr. Calhoun, the Illinois attorney who has been selected by the president to take the place of Mr. Day, of Canton, as the legal representative of this government in the prosecution of the Ruiz case in Havana, was at the state department Thursday to begin the preparation of his case. He spent some time with Assistant Secretary Rockwell, making himself acquainted with what has already been done by Consul General Lee and the department of state.

Hon. T. S. Sharretts, president of the board of United States general appraisers at New York, has been summoned to Washington to advise the senate committee on finance in relation to the tariff bill, was asked Thursday for an opinion in regard to the merits of the amended bill as a revenue producer, and in reply said:

"In my opinion the bill will produce sufficient revenue to meet the demands of the government. The duty on tea will aggregate at least \$10,000,000, while the increase provided for by the tax on beer will amount to from \$12,000,000 to \$14,000,000 more. The increased duty on sugar will result in a material gain to the volume of revenue over that produced by the act of 1894. Indeed, this increase alone would be almost sufficient if times were prosperous to produce the additional revenue necessary to support the government, as the deficiency under that act was due largely to the depressed conditions. I estimate the increase of the duty on sugar over that of the Wilson law to amount on the average to about 35 per cent. I do not believe that the increased rate will materially affect the volume of imports."

"There will also be a large addition from wool. I think the increase from this source will exceed the possible decrease from the manufacturers of wool due to the rates being prohibitive on the lower grades of woolen mixed goods. The cotton schedule shows very little change from the Wilson law and the same may be said of the metal, flax and sundries schedules. I say that the increased revenue on the articles included in these schedules would not exceed \$5,000,000."

Representative King, democrat of Utah, Thursday introduced a resolution for the annexation of Hawaii. The resolution declares that citizens of the United States, some of whom reside in the islands, have extensive financial interests there, that many of the citizens were formerly citizens of the United States, and by the ties of affinity and consanguinity are indissolubly bound to this government, that the rights and liberties of the Hawaiian people are guaranteed by its constitution, but that the perpetuity of the republic is not assured by reason of efforts to secure European control or Asiatic domination.

WASHINGTON, May 7.—Senator Bacon, of Georgia, has introduced a joint resolution declaratory of the policy of the United States in favor of the arbitration of international differences.

WASHINGTON, May 7.—An important order, prohibiting a pension claimant whose claim has been adjudicated, either favorably or unfavorably, from filing papers for its reconsideration if disallowed, or for an increase if pension has been issued, until one year from the date of the previous consideration of the case is contemplated by the commissioner of pensions and may be issued soon. The purpose of the proposed order is to lessen the great volume of work confronting the bureau and to enable it to devote most of the time of the examiner to original claimants.

WASHINGTON, May 7.—Gen. James Longstreet, the famous confederate fighter, will be appointed commissioner of railroads by President McKinley.

The Tariff Open.
ST. LOUIS, May 7.—Though Thursday was the opening day of the Tariff of the North American Tariff, little was done but receiving the delegates and their friends. The weather is fine and gives promise of a good week. Thursday afternoon 800 children belonging to the St. Louis turnverein, gave the opening exhibition and an immense crowd watched the picturesque scene.

IN CONGRESS.

The Sundry Civil Bill Considered in the House—Bi-Weekly Meetings in the Senate.

WASHINGTON, May 7.—SENATE.—The senate Thursday agreed to an amendment to the sundry civil bill, revoking the order of President Cleveland, made on February 22 last, establishing forest reservations aggregating 17,000,000 acres. The debate brought out much criticism of Mr. Cleveland's order. Senators Pettigrew, Wilson, Turner, R. Wilson and White speaking against it. Mr. Gray (Del.) defended the course of the president, pointing out that it was the result of an inquiry authorized by congress and conducted by the National Academy of Science. Mr. Allison endeavored to have the amendment rescinded, so as to leave the question of reservation to the president, but was defeated on a yeas and nays vote, 11 to 32. Mr. Gorman made a point of order against the amendment, but this being submitted to the senate, was defeated 23 to 52. The amendment was then agreed to without division. The sundry civil bill was passed late in the day. It carries an aggregate of \$33,000,000. During the day Mr. Bacon, of Georgia, introduced a joint resolution deprecating war and announcing the policy of the government in favor of arbitration. The resolution was referred to the committee on foreign relations.

HOUSE.—The republicans of the house Thursday followed up their recent endorsement of speaker Reed's policy of postponing the appointment of committees by establishing the policy of bi-weekly meetings through the adoption of a resolution reported by the committee on rules providing that the house shall meet on Mondays and Thursdays until further action. On this resolution the democrats and populists were solidly arrayed against the republicans and it was adopted by a vote of 191 to 83 after a partisan debate. The opposition led by Mr. Bailey, of Texas, was based on the ground that the programme would prevent consideration of the bankruptcy bill. Adjourned until Saturday.

PROF. BARNARD

Makes a Journey in an Airship Constructed by Himself.

NASHVILLE, Tenn., May 7.—Thursday, at the Tennessee Centennial Exposition grounds, Prof. Arthur Barnard, physical instructor of the Y. M. C. A., of Nashville, began a journey in an airship constructed by himself. The officials of the exposition and the people attending witnessed the ascent of the aerial voyager.

The ship moved off in perfect order and passed out of sight in a few minutes. Prof. Barnard promised to sail against the wind after rising into the air and he did so. The airship will be continued in use at the exposition. Prof. Barnard said he would land at the starting point Thursday night. The airship is 45 feet long and 20 in diameter.

AUTHORITIES

Of Paris Blamed for the Charity Bazaar Catastrophe.

The Flimsy Structure Had Not Even Subjected to an Inspection.

One Hundred and Forty Dead Bodies Taken Out of the Ruins—Several Days Will Elapse Before the Exact Number of Victims Will Be Known.

PARIS, May 7.—The blame for the awful catastrophe at the Grand Bazaar of Charity Tuesday afternoon is being put upon the administrative authorities of the city, because such a combustible structure was allowed to be erected.

No sort of inspection seems to have been made in advance by the prefect of police.

A thorough investigation is promised. Michael Heine, the manager of the bazaar, said last evening: "We ought to have foreseen that such a disaster as this was possible, but the stalls have been increasing every year and we were very anxious not to lose an inch of ground."

President Faure has received telegrams of condolence from Queen Victoria, the Emperor Nicholas, the Emperor William, King Humbert and other sovereigns, all couched in terms of the deepest sympathy.

One hundred and forty bodies have been taken out of the ruins of the charity bazaar fire, and it is believed that still more will be found. It is believed that several days will have elapsed before the exact number of victims is known.

The Matin publishes a report of an interview with a lady designated as "Mlle de L.", who described the death of the Duchesse d'Alencon at the fire which destroyed the Charity bazaar on Tuesday. The duchesse was conversing with her son, the Duc de Vendome, in front of the stalls when the cry of fire was spread. The due turned to his mother and said: "Let us go, madame; come immediately."

The duchesse replied: "No, give the visitors time to escape."

"The lady, continuing her story, says: 'I then saw the crowd rush toward the exits. The flames were spreading rapidly and the burning tar from the roof was falling upon us. I seized the duchesse about the waist and dragged her a few paces, saying, 'You must come,' but she escaped from my grasp with a brusque movement, saying, 'No, I will remain.'"

"I was choking and the flames had already reached us so that I was compelled to abandon her. The duchesse stood motionless with her eyes raised heavenward."

BERLIN, May 7.—The Duchesse d'Alencon was the 18th fiancée of the unfortunate King Ludwig of Bavaria. Ludwig erected in his winter garden a kind of altar with her bust upon it. Before this he passed those hours which he was obliged to spend without her.

The most renowned artists were commissioned to immortalize her both in stone and on canvas. A celebrated copper engraver was instructed to draw her in the presence of the king. Immediately afterward Ludwig heard of her fickleness and coquetry with a Munich photographer. Thereupon he destroyed the copper engraving. Next he threw the bust of the princess through the window. These delusions undoubtedly contributed to his subsequent insanity.

PARIS, May 7.—The American chamber of commerce of Paris Thursday adopted a resolution setting forth that the chamber is "deeply pained at the terrible misfortune which has just caused the premature death of so many prominent persons and expresses its most keen and most sincere sympathy and sends to the families of the victims who gave their lives in the cause of charity and benevolence the assurance of its deep and respectful condolences."

NEW YORK FIREMEN

Overcome by Smoke in a \$500,000 Fire in New York—One Dead.

NEW YORK, May 7.—The interior of the large cold storage warehouse of the Merchants Refrigerating Co., occupying the upper floors of the five-story brick and stone building, 159 to 163 Chambers street, running to Reade street, was almost completely destroyed by fire Thursday night. The loss will probably amount to more than \$500,000. Three alarms called 10 engines to the scene and 30 or more firemen, who entered the basement of 161 Chambers street, where the fire started, were overcome by smoke. Fireman John Rheinhardt missed his way in leaving the cellar and was finally taken out unconscious. He died in an ambulance on the way to the hospital.

Rheinhardt was taken from the cellar by Firemen John J. Murphy and John O'Connell. They were both overcome by smoke while rescuing Rheinhardt and had to be taken to the hospital.

The first floor of 161 Chambers street, in the basement of which the fire started, was occupied by Robert Gair as a paper warehouse. As soon as the firemen got into the cellar they were immediately overcome. Rescuing parties were formed of policemen, citizens and firemen, who carried the unconscious men across the street to engine house No. 25, which was formerly old Chambers street hospital. The horses there were turned out and a hospital made of the place again.
